COMPANY PROFILE

About us

We are located in MUMBAI, the financial capital of INDIA. Company specializes in the Design and Manufacture of high-quality Control Panel Accessories, Conveyor Products and Packing Machine Components with a commitment to innovation and precision engineering. The company serves a diverse range of industrial product with best quality products & great service.

What we do

1. Innovation in combination with unique design as per clients requirements.
2. Technological background with decades of experience.
3. Optimized and widest product range of standard machine elements & driven by the market.
4. Worldwide distribution network.
5. Fastest TAT with full stock availability.

Why us

Quality assurance our commitment to quality is reflected in our rigorous testing protocols and adherence to international manufacturing standards. We continuously invest in research and development to innovate and improve our product offering. High quality standards and our target oriented thinking aimed at ensuring an optimal utilization of our products, CHANNEL INDUSTRIES is firmly established as a proficient partner helping to meet market requirements. We welcome any enquiry for both domestic market as well as international market. Material selection is a prime concern while entering into the manufacturing process.
